6/26/02 A01-06-029 Wild Goose Storage Inc., to Amend its Certificate of Public Convenience and Necessity to Expand and Construct Facilities for Gas Storage Operation

Summary: On June 21, 2002, Michael Day of Goodin, MacBride, Squeri, Ritchie & Day, counsel for Wild Goose Storage Inc. (Wild Goose), met with Trina Horner, advisor to Cmmr. Lynch, Belinda Gatti, advisor to Cmmr. Brown, and Julie Fitch, advisor to Cmmr. Peevey, in three separate meetings in San Francisco. Also present was Philip H. Davies, Vice President of Wild Goose. In the meeting with Trina Horner also participated Brian Prusnek of the Energy Division. Written material (attached to the notice) was used. Day stated that the record proved that Wild Goose does not limit its service to noncore customers. The Wild Goose representatives advocated that the proposed decision (PD) be amended to conclude that Wild Goose does not possess market power, while allowing the Commission to require additional reporting to guard against potential market power abuse. Davies and Day stated that the imposition of the application of the full Affiliate Transaction Rules was an inappropriate response to concerns about potential market power. Day indicated that the discussion in the PD of the pro-rationing non-firm capacity on the Pacific Gas and Electric Company's backbone system between independent storage customers and as-available shippers on the Redwood Path represented a workable compromise but required clarification.

In the first meeting also participated Julie Fitch and Kevin Coughlan, advisors to Cmmr. Peevey, and in the second meeting - Cmmr. Duque. During the first meeting, Fessler discussed the meeting held by Aquila with the financial community in which Aquila stated its intention to put Lodi into its energy capacity group and Aquila's statement that the recent negative developments in Aquila's energy trading operations are separate from and will not affect Aquila's operation of its core business, including Lodi. During the second meeting, Fessler and Boothe expressed the concerns the applicants have with the continued procedural delays in this case.

Investigation into the natural gas procurement practices of Southwest Gas Company

Summary: On June 25, 2002, Daniel Wm. Fessler, representing Southwest Gas Corporation (Southwest), met with Cmmr. Peevey in San Francisco. Also present were Julie Fitch and Kevin Coughlan, advisors to Cmmr. Peevey, and James Boothe, representing Southwest. Written material (attached to the notice) was used. Fessler and Boothe discussed the negative impact a disallowance in this proceeding would have on the Commission's position in the El Paso refund proceeding at the Federal Energy Regulatory Commission, the fact that reliability of service is not at issue in this proceeding, and the fact that the disallowances proposed by the proposed decision and alternate equal 2.2 and 4 times Southwest's annual California earnings, respectively, while disallowances imposed on other utilities in reasonableness review have never exceeded a fraction of the utility's annual earnings.

Investigation into the natural gas procurement practices of Southwest Gas Company

Summary: On June 24, 2002, Lori Panzino, Division Chief, Franchise Programs for the County of San Bernardino (County), attended an all-party meeting with Cmmrs. Duque and Brown in San Francisco. Also present were Laura Krannawitter, advisor to Cmmr. Duque, Steve Weissman, advisor to Cmmr. Wood, and Tom Beach, Crossborder Energy, consultant to the County. Panzino described the hardships that the extreme spikes in Southwest Gas Corporation's (Southwest) natural gas rates during the winter of 2000-2001 inflicted on the citizens of the County. Panzino stated that the County has participated actively in this case in order to understand the causes of Southwest's very high rates, and to obtain relief for County's citizens. Beach rebutted Southwest's argument that this case is not about certainty of gas supply. Beach stated that Southwest should not be allowed to evade its responsibility to contribute to the overall reliability of the southern California gas system. Beach noted that Southwest claims that it did not fill storage because futures market prices during the summer of 2000 indicated that gas prices would decline going into the winter. Beach asserted that the record shows that injections into storage were economic in April, May, and June of 2000. Finally, Beach described the County's recommendations to modify the disallowance calculations adopted in the alternate of Cmmr. Wood.

Summary: On June 25, 2002, Jenny Wong, Director-Regulatory of Verizon California Inc. (Verizon), met with Cmmr. Peevey in San Francisco. Also present were Lester Wong, advisor to Cmmr. Verizon representatives explained that traffic delivered to virtual NXX should not be eligible for reciprocal compensation. Summary: On June 25, 2002, Laura Tudisco, Staff Counsel of the Office of Ratepayer Advocates (ORA), met with Cmmr. Lester Wong, advisor to Cmmr. Peevey, in San Francisco. Also present was James Simmons, Public Utilities Regulatory Analyst V, for ORA. Written materials (attached to the notice) were used. Referring to ORA's petition for modification of D99-06-053, ORA's representatives described how, since the re-categorization of the Wire Pro insurance service to Category III, Pacific Bell (Pacific) has raised rates 150% above the ceiling rate originally approved for the service. ORA also described how competition has failed to contain Pacific's price increases. ORA explained that ORA's petition asks the Commission to re-categorize Pacific's residential Wire Pro insurance plans to Category II, and seeks reinstatement of a ceiling rate of \$1.20 for the service.

Summary: On June 24, 2002, Brian Cherry, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), participated in an all-party meeting with Cmmrs. Duque and Brown in San Francisco. Also present were Belinda Gatti, advisor to Cmmr. Brown, Laura Krannawitter, advisor to Cmmr. Duque, Steven Weissman, advisor to Cmmr. Wood, and other attendees listed on the attachment to the notice. Cherry stated that one of the primary reasons Southwest Gas Corporation (Southwest) experienced high prices in California during the winter of 2000-2001 was because of the lack of available interstate capacity, an issue that is ripe for consideration in the upcoming Gas Capacity Order Instituting Investigation. Cherry also emphasized that, from a public policy perspectives, incentives programs are preferable to retrospective reasonableness review.

Summary: On June 26, 2002, William H. Booth, counsel for the California Large Energy Consumers Association (CLECA), attended an all party meeting with Cmmrs. Peevey and Brown in San Francisco. Booth stated that CLECA is opposed to the proposed decision's approval of Southern California Edison's Historical Procurement Charge (HPC) proposal. Booth stated that Edison has failed to demonstrate clear causal responsibility among direct access (DA) customers for its undercollection balance. Booth explained that the manner in which most DA customers contracted with energy service providers (ESP) shifted the risk of increases in market prices to the ESPs, and that by stipulating with the ESPs to pay Power Exchange credits in excess of frozen bundled rates, Edison took on that very risk. Booth stated that it is both ironic and disturbing that Edison now demands that these very DA customers pay it back for undercollection it says resulted from its assumption of the price risk. Booth urged the Commission to consider a smaller allocation of the undercollection balance for recovery from DA customers.

Summary: On June 26, 2002, Norman Pedersen, on behalf of Strategic Energy L.L.C., met with Cmmrs. Peevey and Brown in an all-party meeting in San Francisco. Also present were Kevin Coughlan, advisor to Cmmr. Peevey, and David Gamson, advisor to Cmmr. Brown. Pedersen explained that cost causation is a fundamental principle underlying the allocation of a utility's costs. Pedersen also stated that Southern California Edison's (Edison) unrecovered procurement costs were not incurred in order to serve direct access (DA) customers; to the contrary, DA customers allowed Edison to escape procurement costs. With respect to the negative bill credits, Pedersen stated that Edison voluntarily took on the risk that it would have to pay the credits and should not now be allowed to recover the credits by billing DA customers. Pederson asserted that if the Commission determines to permit Edison to recover an amount equivalent to the credits from DA, there should be a cap on the amount recovered. Pedersen explained that without a cap, the total procurement-related surcharge levied by Edison on DA customers could increase to such a level as to force DA customers to take bundled service, thereby effectively terminating DA in California.

Summary: On June 27, 2001, Eric Batongbacal, Executive Director-Regulatory Matters, Pacific Bell Telephone Company (SBC Pacific Bell), met with Fassil Fenikile, advisor to Cmmr. Duque, in San Francisco. Also present was Jamie Malone, General Manager-Regulatory, SBC Pacific Bell. Written materials (attached to the notice) were used. SBC Pacific Bell representatives discussed the D. C. Circuit Court of Appeals decision to vacate the Federal Communications Commission's (FCC) Line Sharing Order and the draft decision (DD) in the HFPL phase of the line sharing proceeding. Malone stated that the Commission should maintain the status quo and allow the Commission's interim pricing provisions to remain in effect until the FCC issues new unbundling rules. Malone stated that the DD's allocation of 25% of the loop price is contrary to Commission precedent. Batongbacal explained that, contrary to the DD's finding, there is no double recovery.

McCrea indicated that Southern California Edison Company (Edison) had failed to provide evidence justifying the collection of 2.5 cents per kWh from direct access customers for a 24-month period. McCrea further stated that the purpose of the PROACT is to collect underrecovered wholesale procurement costs, not transition costs.

Summary: On June 28, 2002, Thomas R. Dill, President of Lodi Gas Storage, L.L.C. (LGS) and Western Hub Properties, L.L.C. (WHP), had a telephone discussion with

Aaron Johnson, advisor to Cmmr. Lynch. Mark D. Cook, Vice President-The Exchange Center of Aquila Merchant Services, and Karen Plessinger, Managing Director of ArcLight Capital Holdings, L.L.C. also participated in the discussion. Dill stated that immediate Commission action to approve this application is essential in order to avoid serious financial consequences for LGS. Cook explained that the proposed decision (PD) in the Wild Goose Gas Storage expansion proceeding would impose extensive reporting requirements on Wild Goose but the PD does not state that affiliate transaction information filed with the Commission will be kept confidential. Cook stated that any similar lack of confidentiality with respect to reporting requirements imposed on LGS would severely reduce the competitive position, and therefore the value, of LGS.
